Why Businesses Are Moving Online Today?

The traditional way of doing business is changing rapidly. Don't let your competitors take your loyal customers.

ONLINE GROWTH

+45% Yearly

Customers Search Online First

IMPACT: HIGH

90% of customers search on Google before visiting a shop. If they can't find you online, they assume you don't exist and go to competitors.

Competitors Are Already Online

RISK: CRITICAL

Your neighboring shops and big brands like Amazon & Blinkit are already selling on WhatsApp & apps, taking away your loyal customers daily.

No Website = Lost Revenue

LOSS: 30-40%

Without a digital catalog, you are limited to walk-in customers only. You are missing out on orders from across the city and country.

Going Online Feels Complicated

BARRIER: TECH

Most business owners fear that creating a website requires coding, expensive developers, or technical skills they simply don't have.

What Customers Really Need

Understanding the key drivers behind modern buying decisions.

The Core Requirement

Today Customers Require 2 Things: **Convenience/Comfort** and **Clarity**. If they get that, Cost is not a challenge, but if businesses lack either one they often lose customers.

- ✓ With Onlin, we help you provide both Convenience and Clarity to your customers.

1. Convenience & Comfort

Making the shopping experience effortless and accessible anywhere.

- 📱 Shop anytime on mobile
- ⚡ Smooth, fast checkout
- 👉 Self-service browsing
- 💬 WhatsApp assistance

2. Clarity & Confidence

Removing doubts with transparent information and communication.

- 📄 Complete product info
- 💎 Transparent pricing
- 🚚 Delivery timelines
- 📦 Easy order tracking

⚠️ **Going Online Today is not just an Option, it's a Necessity.**

"If you are Offline, your Customers also get Off from you."

The 7 D's for Business Growth

To succeed in today's digital economy, your business needs these 7 critical dimensions. Missing even one creates a gap in your customer journey.

01

Digitally Available

Not just Instagram or WhatsApp, but an Online Store acting as your digital storefront. Customers want to see everything at their fingertips instantly.

02

Distance

Customers visit only when they have clarity and confidence. Traffic and time constraints make them check online first before visiting your physical store.

03

Discoverability

80% of buyers search online before buying. If you are not discoverable on search engines and digital platforms, you are invisible to them.

04

Designs & Variety

Offline catalogs aren't enough. You need digital inventory to showcase variations, new designs, and full product range to increase discoverability.

05

Direct Access

Give customers a direct link to your store, not just social posts or marketplaces. They need the premium digital feel of your own branded platform.

06

DIY (Self-Service)

Buying trends have changed. People prefer self-shopping online which offers them comfort, privacy, and the freedom to browse at their own pace.

Demand Catering

Sending PDF catalogs with hundreds of pages via WhatsApp is demand diversion, not catering. Fulfill real demand by being digitally available with a proper store interface where purchase is easy.

The D-0 Risk (Dead Lead)

If you have these 7 D's you are everything a buyer needs. If even one is missing, you risk turning a potential customer into a Dead Lead (D-0).

One Platform. Everything You Need.

Replace multiple complicated tools with one simple dashboard designed specifically for Indian businesses.

Create Online Store

No coding or design skills needed. Choose a professional theme, upload your logo, and launch your branded website in minutes.

Manage Products

Add unlimited products, set prices, manage inventory, and organize categories effortlessly from your mobile or laptop.

WhatsApp Orders

Receive orders directly on your WhatsApp. Chat with customers, negotiate, and close deals in a way they are comfortable with.

All-in-One Dashboard

Track daily sales, visitor traffic, and order status from a single, easy-to-understand dashboard. Total control at your fingertips.

Build. Sell. Grow.

Six powerful ways Onlin transforms your traditional business into a digital powerhouse.

Sell Products Online

Launch a stunning, mobile-first online store in minutes. Showcase your entire catalog to customers anywhere, anytime, 24/7.

Retail & Wholesale

Unified platform for B2C and B2B. Set custom pricing tiers, bulk discounts, and minimum order quantities for your wholesale buyers.

Jewellery Commerce

Specialized logic for gold & silver. Auto-calculate prices based on purity (22k/24k), making charges, and live market rates.

Smart Catalogues

Generate branded PDF catalogues instantly or share direct product links via WhatsApp, Facebook, and Instagram to drive traffic.

Promote & Market

Run powerful marketing campaigns. Create discount coupons, flash sales, and use built-in SEO tools to attract new customers.

Secure Payments

Offer seamless checkout experiences. Accept UPI, Credit/Debit cards, Net Banking, and COD with integrated payment gateways.

Core Capabilities

Powerful engines driving your online business growth. Built for scale, speed, and simplicity.

Online Store & Commerce

For All Business Types

- ✓ **Full-Featured Online Store**
Launch a professional PWA & Website application that works seamlessly on mobile and desktop devices.
- ✓ **Unlimited Products**
Upload as many products as you want with secure access controls, variants, and organized categories.
- ✓ **Custom Design Control**
Access the Onlin Theme Bank, connect custom domains, and add custom code to header/footer for unique branding.

Wholesale & B2B Engine

For Distributors & Manufacturers

- ✓ **Advanced Quantity Controls**
Set Minimum Order Quantity (MOQ), Minimum Order Amount (MOA), and break-based pricing rules for bulk buyers.
- ✓ **Customer Group Pricing**
Create special pricing tiers and hidden catalogs for different customer groups like retailers, distributors, or VIPs.
- ✓ **Enquiry-Based Selling**
Allow customers to send enquiries or orders directly via WhatsApp for negotiation and manual confirmation.

Jewellery Commerce Engine

For Gold & Diamond Merchants

- ✓ **Purity-Based Pricing**
Automatically calculate prices based on live gold/silver rates and specific purity levels (18k, 22k, 24k).
- ✓ **Automated Price Breakup**
Show clear transparent cost breakdowns including metal rate, stone charges, making charges, and taxes to build trust.
- ✓ **Branded Digital Catalogue**
Generate professional PDF catalogues with your branding to share instantly with clients on WhatsApp.

Growth & Operations

Tools to market your brand and manage day-to-day business efficiently.

Marketing & Promotion

- ✓ **SEO Automation:** Boost visibility with built-in SEO tools, from Basic to Hyperlocal targeting for nearby customers.
- ✓ **Content AI & Recommendations:** Generate product descriptions automatically and get smart AI suggestions to increase sales.
- ✓ **Video Shopping:** Engage customers with immersive video content directly on your product pages for higher conversion.

Payments & Checkout

- ✓ **Optimized Cart & Checkout:** Reduce drop-offs with a smooth, fast checkout process designed specifically for mobile users.
- ✓ **Discount Engine:** Create flexible offers, coupons, and flash sales to drive urgency and conversions during festivals.
- ✓ **Customer Wallet:** Enable partial payments and store credits to encourage repeat purchases and build customer loyalty.

Business Management

- ✓ **Multi-Store Management:** Control multiple locations or brands from a single, unified dashboard without switching accounts.
- ✓ **Vendor Management:** Streamline your supply chain with dedicated tools for managing supplier relationships and orders.
- ✓ **Company Documents:** Store and manage essential business pages, policies, and legal documents securely in one place.

Core Capabilities

Powerful tools to engage customers, optimize operations, and build your brand presence.

Customer Engagement

- 
Cart Recovery Automation
 Automatically send reminders on WhatsApp to recover lost orders and increase conversion rates significantly.
- 
WhatsApp-Based Enquiry
 Enable direct communication for negotiations, custom orders, and personalized support where customers are most comfortable.
- 
Store Protection
 Use "Away Mode" for holidays and secure your store with password protection when needed for exclusive access.

Analytics & Logistics

- 
Smart Visitor Analytics
 Track real-time visitor traffic, popular products, and customer behavior to make data-driven decisions that grow sales.
- 
Hyperlocal Delivery
 Integrate Google Maps for precise location pin-drops and offer slot-based delivery or store pickup options.
- 
Real-Time Shipping
 Seamless integration with logistics partners to provide accurate shipping rates and automated tracking updates.

ZoomBiz Kit

- 
Physical Branding Assets
 Receive NFC Smart Cards, branded keychains, and premium marketing posters to promote your store offline professionally.
- 
Digital Creatives Suite
 Get professionally designed social media creatives and festival posts to engage your audience throughout the year.
- 
Ongoing Layout Updates
 Keep your store looking fresh with regular updates to digital layouts and branding materials as trends evolve.

i Understanding Active Catalog Capacity

This refers to the number of products visible to your customers at any given time. You can have unlimited products stored in your backend, but only the active capacity number (500 to 25,000) can be live on your store simultaneously.

Trusted by 1500+ Businesses

Join the community of growing Indian businesses scaling with Onlin.

Dhruv Goel

SurajBhan Jewellery Hub

“As a traditional jeweller, moving online felt daunting until we discovered Onlin.in. Our website now reflects both elegance and efficiency. The ‘Price Change’ feature is a game-changer, letting us update rates in real time without manual effort. Onlin understood our needs and suggested the right tools to make our digital journey smooth and effective.”

Yash Bajaj

Amari Designer Jewellery, Hyderabad

“Onlin.in has simplified our digital Journey. Our site doubles as a product catalogue and landing page for social links. Feature like ‘Protect Store’ and festive creatives help us track visitors and promote beautifully. With full product details, shopping feels secure for our customers.”

Prateek Toshniwal

Anand Fancy Collection, Hyderabad

“Using onlin.in as an Ecommerce platform has transformed my business. It’s user friendly, reliable, and helped me reach more customers than ever before. Managing orders, payments, and inventory is seamless. The support team is responsive, and the tools provided made scaling up easy. I highly recommend it to anyone looking to grow their online presence effortlessly”
